

In-depth cleaning **EPOX/I PROREMOVER**

Detergent to remove epoxy grout

PROFESSIONAL USE
CIPA INDUSTRIAL SERVICE

Epoxy/i Proremover It is a specific product for removing epoxy grout stains and residues in porcelain stoneware flooring.

It can be used immediately after grouting, but it is also able to remove old residues.

- Deep Cleaning Specialist
- Cleaning after laying
- Delete halos/stains created by epoxy grout
- Perfect for porcelain stoneware

USE ON:

PORCELAIN STONEWARE
and non-absorbent
surfaces

NOT USE ON:

MARBLE
STONE polished
WOOD
METHACRYLATE

CONDITIONS OF USE FOR SPECIALISTS

Always try on areas not too highlighted before you begin treatment.
For best results, apply **Epoxy/i Proremover** to a dry surface.
Apply directly to the surface to be treated or on the traces of grout and leave to act for a some minutes. Then proceed to cleaning with microfiber floor cleaning cloth. Collect the residual liquid, then rinse thoroughly with clean water.
It may be necessary to repeat the cleaning.

In-depth cleaning EPOX/I PROREMOVER
