

# THE SAFEST WAY TO REMOVE STAINS

## PROGETTO INDUSTRIA

| TYPE OF STAIN            | DETERGENT  | TYPE OF DETERGENT           |
|--------------------------|---|-----------------------------|
| Vegetable and animal fat | Fila PS/87  | alkaline based cleaner      |
| Beer                     | Fila PS/87  | alkaline/acid based cleaner |
| Coffee                   | Fila SR/95 - Fila PS/87   | alkaline based cleaner      |
| Wine                     | Fila SR/95 - Fila PS/87   | alkaline/acid based cleaner |
| Coke                     | Fila SR/95 - Fila PS/87   | alkaline based cleaner      |
| Varnish traces           | Fila PS/87 - Fila NoPaintStar   | alkaline/acid based cleaner |
| Rust                     | Deterdek  | acid                        |
| Cement - Mold            | Deterdek  | acid                        |
| Limestone                | Deterdek  | acid                        |
| Bitumen                  | FilaSolv  | solvent                     |
| Candle wax               | FilaSolv  | solvent                     |
| Chewing gum              | Fila PS/87  | alkaline based cleaner      |
| Glue                     | Fila PS/87  | alkaline based cleaner      |
| Tire                     | Fila PS/87  | solvent                     |
| Ink                      | Fila SR/95 - Fila PS/87   | acid                        |
| Nicotine                 | Fila SR/95 - Fila PS/87   | alkaline based cleaner      |
| Urine - Throw up         | Fila SR/95 - Fila PS/87   | alkaline based cleaner      |
| Graffiti                 | Fila NoPaintOne   | alkaline/acid based cleaner |
| Dirty joints             | FugaNet   |                             |
| Paint signs              | Fila SR/95 - Fila PS/87   | solvent/acid                |
| Metallic signs           | Deterdek  | acid                        |
| Dye for hair traces      | Fila SR/95 - Fila PS/87   | solvent/acid                |
| Scotch spots             | FilaSolv - Fila PS/87   | alkaline based cleaner      |

**NOTE WELL:**

Alkaline: caustic soda, sodium hydroxide.  
Solvent: turpentine, oil of turpentine, thinner, trichloruro  
Acid: hydrochloric acid, muriatic acid, sulphuric acid, oxalic acid. Use great caution whenever working with acids or other strong cleaning chemicals. Read the product labels carefully and always follow manufacturers directions and precautions.
